How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Recipient has a valid license - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

Morning Briefing: Law used for pandemic stay-home order is coming off the books

July 22, 2021

Emergency powers law used for pandemic stay-home order is coming off the books

The law used by Gov. Gretchen Whitmer to issue emergency orders without legislative approval during the pandemic is getting repealed. On Wednesday, the Michigan House approved Unlock Michigan’s initiative to repeal the Emergency Powers of the Governor Act of 1945, which Whitmer drew authority from to extend a state of emergency during the COVID-19 pandemic until the Michigan Supreme Court determined it was unconstitutional in October 2020. The Unlock Michigan initiative does not impact another, more recent state of emergency law on the books that allows the governor to declare a state of emergency for 28 days, after which point the governor must seek legislative approval for a state of emergency to continue. Dear Mr. Maxon,

I sorted the file sent to you (file name: July 15, 2021) by "sale date" and found sales ranging from January 2019 to July 13, 2021. (see attached file) Is this not the time range you wanted?

Please find the attached invoice.

Best Regards,
Teresa

Teresa,

The files you ultimately sent are in an acceptable format, but cover only 9 months of 2019, were already covered in a previous data request. We're after this same data thru present day.

Can you please send the rest of this data set?

I've also not seen an invoice for any of this... please invoice us if there is a charge.

Eric

Teresa,

I take it this is just a sample? This last data set only covers 1/1/2019 thru 9/4/2019.

Eric.

Subject: Critical race theory and the child tax credit

Good morning, reader,

Makayla Coffee explains why many Michigan families are poised to receive up to [\\$300 per month in child tax credits](#) for each child through the end of the year. The effort, part of the federal COVID stimulus deal reached earlier this year, is an effort to lift the financial fortunes of families in the pandemic.

Sophia Kalakailo breaks down a controversial Republican bill that aims to [ban teaching of “critical race theory”](#) in Michigan public schools. Its sponsor says she wants to protect children from “woke indoctrination,” but critics say it’s an effort to gin up the GOP base on racial politics before the midterms.
